Enhanced operational features for the XProtect<sup>©</sup> Smart Client

### **Radinium Click**

Den v

## Radinium Click provide several enhanced operational features for the XProtect<sup>©</sup> Smart Client, that includes, but not limited to the following:

- Limit XProtect<sup>©</sup> Smart Client to open once on a Workstation.
- Limit a user (Basic or Windows Authentication) to login once.
- Display number of XProtect<sup>©</sup> Smart Clients connected.

More features coming...

#### Go to www.radinium.com

Milestone Express+, Professional+, Expert, Corporate 2019 R3 or higher must be installed and working.

Windows LTSC Windows 10 Pro Server 2012 R2 Server 2016 Server 2019

#### How many times has someone opened so many Smart Client's that the Workstation resources runs 100%.

Radinium Click will prevent this. Try to open another Smart Client. It will continue to use the existing opened Smart Client.

Secondary display use not affected.

### Some users will use the same login credentials over and over on several Smart Clients.

Radinium Click will prevent this.

Milestone XProtect Management Client 2020 R1

It will only allow one user (Basic or Windows Authentication) to login at a time.

Radinium Click will show how many XProtect Smart Clients are connected to the Management Server.

The following data will be shown:

Hostname Username with authentication type IP Address Smart Client Version
